### Our Services

#### PROJECT CARGO

Whether you are building a manufacturing plant, mining or drilling the earth, you will need to procure project logistics transportation service to manage your project cargo movement. The services include freight management, cargo handling and cargo moving from origin to your final site location.

#### WAREHOUSING

Warehousing and warehouse management are part of a logistics management system, which is itself a component in supply chain management. Although viewed by some as simply a place to store finished goods, inbound functions that prepare items for storage and outbound functions that consolidate, pack and ship orders provide important economic and service benefits to both the business and its customers.

#### CUSTOM CLEARANCE

Our in-depth knowledge and understanding of this sector has helped us offer customized solutions to all of our clients so that they can reduce lead time. With the required documents, our team of dedicated professionals ensure end-to-end solutions for both Import Customs Clearance and Export Customs Clearance in the most cost-effective manner.

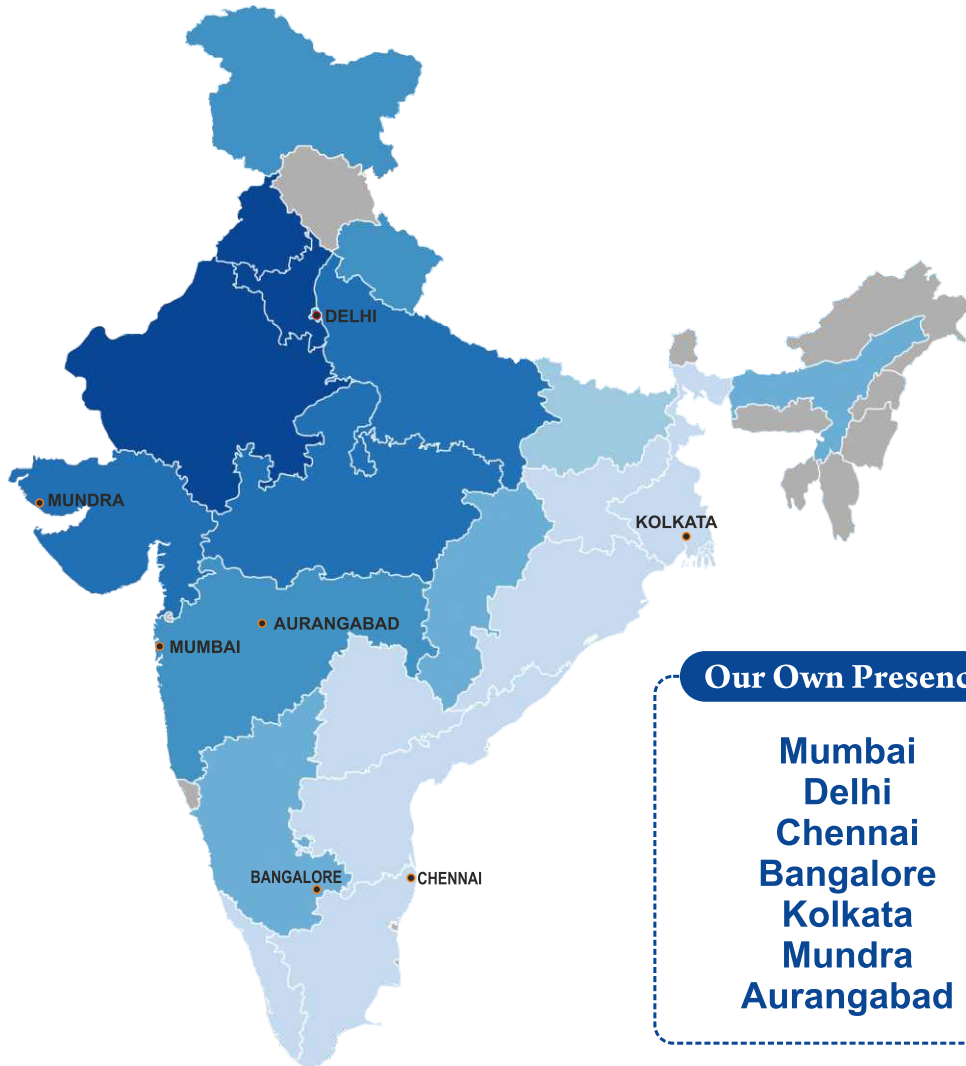

Custom Clearance Services | Committed to achieve customer satisfaction | Highly efficient working procedures | Experience in handling different commodities
